

The set includes:
Signature 707
Signature 703
Signature Center 73
Signature Sub 730A

A TIMELESS EXTERIOR WITH THE FINEST WORKMANSHIP

- + Sounds airy and dynamic
- + Neutral but dedicated playback
- + High efficiency

Surround sound quality:

“The frequency response of the front, center and surround speakers only exhibits a slight ripple factor, while the distribution appears balanced over a large area. Another remarkable feature of Magnat’s speakers is the high level of efficiency; all three speaker types are above 87 decibels and are therefore good processors in their own right that do not need a large amplifier.”

“[...] Magnat’s units also produced a dynamic, powerful and crisp performance in the bass range.”

“Vocals and instruments appear exactly where they belong and there’s a lot of character in the sound that seems very relaxed and effortless. Just the way it should be.”

Stereo sound quality:

“As you would expect from a speaker of this size and configuration, the Signature 707 never leaves you wishing you had support from a subwoofer in the stereo solo mode. “Done” by the country/pop/rock band “The Band Perry” is reproduced with a compactness that is impressive, yet remains finely resolved. The voice of spirited lead singer Kimberley Perry penetrates without ever becoming aggressive, and appears firmly positioned between the speakers. You may like to stay listening a little longer.”
